## ODCP

*\$1 Consulting program (ODCP)* is our Free Consulting services\*, almost!

Under this program we offer Consulting to those in dire straits but ill-afford normal consulting charges. We charge ONE DOLLAR for every problem reported to identify authentic users from

spammers, bots and time wasters. Normal response time for genuine customers would be FIVE working days.

To benefit from this program, please mail to **dinesh@darewinconsulting.in** with the nature of the problem, current situation, expected results and the intended time frame.

For quicker response, please refer to

#### **CLICK FOR MORE INFORMATION\***

Terms and conditions to avail ODCP services

- You agree to share the details of the problem, its magnitude, current KPIs and expected turnaround.
- You will provide access to required systems and applications to understand, analyse and evaluate the context and situation
- You agree that DAREWIN Consulting can share successful case study with prospects and in public domain.

#### **ABOUT US**

##### **OUR MISSION:**

To make Organization and individuals:

- Successful
- Productive and
- Rewarded

Through design of systems, processes and tools for improvement of value delivery chains

Our focus is to provide specialized products and consulting services to market niches that are too small to be worthwhile to large players in the area of Consulting. Still deliver value add to each customer.

##### **Our areas of Interest:**

- Business Turnaround and transformation
- Value Engineering and Analysis

##### **About the team:**

The Management team consists of SAP Professionals with 15+ years of average experience delivering projects for MNCs from Fortune listed clients.

Clients worked by the founders includes **SAP, Microsoft, Xerox, GE, Sony, Tech Data, ColeHaan, Boots, Airbus, Yorkshire Water, MillerCoors** among others.

Substantial experience working in international projects for US, Europe and Asia.

Skillsets include SAP ECC, S4/HANA, SAP SRM and SAP Ariba.

Have undertaken IT transformation projects creating value and benefits to customers.

#### **About the founder:**

Dinesh is a diligent, result-oriented, mild-mannered consulting and delivery professional with good business process knowledge and practical exposure.

He always puts the customer first and provides solutions that benefit the people who run the business.

He has worked with several Fortune listed MNCs in US, UK, Europe and Asia to deliver Business transformation, predominantly in Procurement function.

He is approachable, pragmatic and willing to hear every problem to provide long term fixes.

By education, he has Diploma in Mechanical Engineering, Graduation in Industrial Engineering and a Masters in Consultancy Management which helps him to understand the challenges from different levels and design effective and efficient value chain systems to give optimum results.

His favourite quote:

***“A hammer shatters glass, but forges steel. The choice is yours!”***

Strongly believes in:

Courage, Confidence, Love and Hard work.
